## MISSION

At Aixtrades , our mission is to democratize finance by making AI-powered trading accessible to all and providing a decentralized platform for users to earn rewards from their participation in the ecosystem.

## VISION

We envision a future where financial opportunities are borderless, secure and user-centric, empowering individual to take control of their financial destiny.

# CRYPTOCURRENCY

Cryptocurrency is a digital payment system that doesn't rely on banks to verify transactions. It's a peer-to-peer system that can enable anyone anywhere to send and receive payments. Instead of being physical money carried around and exchanged in the real world, cryptocurrency payments exist purely as digital entries to an online database describing specific transactions. When you transfer cryptocurrency funds, the transactions are recorded in a public ledger. Cryptocurrency is stored in digital wallets.

Cryptocurrency received its name because it uses encryption to verify transactions. This means advanced coding is involved in storing and transmitting cryptocurrency data between wallets and to public ledgers. The aim of encryption is to provide security and safety.

# CRYPTOTRADING

Crypto Currency Trading Sounds Good, but it is not profitable every time because it does not require only good experience but depends upon many factors. Fortunately 'Aixtrades' is one of the sure shot platform to generate revenue because we have got experience traders, sophisticated equipment's, advanced AI Trade Bot and of course high trading volume. Profit is sure when it combines with these factors. More over the revenue so far generated is distributed among the stake holders.
